Customer Responsibility

Owner/Insured:

Claim#

Job Address:

Air Movers:

Air movers are designed to increase the rate of evaporation by changing water from a liquid into a vapor.

Dehumidifiers:

Dehumidifiers are designed to reduce the humidity in the air. This helps increase the rate of drying.

Equipment Responsibility:

By signing below the customer certifies that they have been informed and understand that they are responsible for loss or theft of the equipment while it is in their care and custody. This also certifies that the customer agrees to allow a company technician access to the property during normal business hours to monitor the equipment.

Safety and Health:

If air movers and/or dehumidifiers must be moved, they must be shut off and unplugged as it may be hazardous to move while they are in operation. Exposed tackless strip is a danger even when covered. Please take care when walking near tackless strip. The floors may be slippery when wet. Please take extreme care if walking on or from wet flooring materials.

Air Mover - Dry Air Tempest
